Taking the place of the old pirate show, The Sirens of TI brings back the notion that Las Vegas is an Adult's Playground.

Sexy female pirates referred to as Sirens lure a band of renegade pirates with their powerful song and dance to the siren's cove. Then a battle ensues with an awesome display of fireworks and pyrotechnics. The heat from the blaze of the cannons' explosions can be felt over 100 feet away. It is simply spectacular.

This has to be one of the best Free Things to do in Las Vegas. If you are planning on seeing this show be sure to get there early, especially on the weekends. We showed up 30 minutes before the 11:30 show and the audience area was packed.

After the show you can visit the TI's new Tangerine Lounge & Nightclub overlooking the pirate's cove.
